Actually, all you need to do is a select-and-delete move. As MacRemover comes in handy to all those who want to get rid of any unwanted programs without any hassle, you're welcome to download it and enjoy the excellent user experience right now! This article provides you two methods (both manually and automatically) to properly and quickly uninstall Kidwidget 2. Review Kidwidget 2 files or folders, click Complete Uninstall button and then click Yes in the pop-up dialog box to confirm Kidwidget 2. Now let's see how it works to complete Kidwidget 2 removal task. Download MacRemover and install it by dragging its icon to the application folder. Empty the Trash to fully remove Kidwidget 2. If you are determined to delete Kidwidget 2. Open the Applications folder in the Finder (if it doesn't appear in the sidebar, go to the Menu Bar, open the "Go" menu, and select Applications in the list), search for Kidwidget 2. You can search for the relevant names using Spotlight. Those preference files of Kidwidget 2. But if you are trying to uninstall Kidwidget 2 in full and free up your disk space, removing all its components is highly necessary. 1 and safely deleting them within a few clicks. Thoroughly uninstalling Kidwidget 2. 1 removal. The whole uninstall process may take even less than one minute to finish, and then all items associated with Kidwidget 2.

Launch MacRemover in the dock or Launchpad, select Kidwidget 2 appearing on the interface, and click Run Analysis button to proceed. How to Uninstall Kidwidget 2 Application/Software on Your Mac. Unlike the software developed for Windows system, most of the applications installed in Mac OS X generally can be removed with relative ease. 1 from your Mac with MacRemover becomes incredibly straightforward and speedy, right? You don't need to check the Library or manually remove its additional files. If you change your mind, before emptying the Trash, you can right-click on the items in the Trash and choose Put Back in the list. Terminate Kidwidget 2 process(es) via Activity Monitor. Before uninstalling Kidwidget 2. 1, you'd better quit this application and end all its processes. If Kidwidget 2. To fully get rid of Kidwidget 2 from your Mac, you can manually follow these steps: 1. 1 can be found in the Preferences folder within your user's library folder (~/.Library/Preferences) or the system-wide Library located at the root of the system volume (/Library/Preferences/), while the support files are located in '~/Library/Application Support/' or '/Library/Application Support/'. Alternatively, you can also click on the Kidwidget 2 icon/folder and move it to the Trash by pressing Cmd + Del or choosing the File and Move to Trash commands. Select the process(es) associated with Kidwidget 2 in the list, click Quit Process icon in the left corner of the window, and click Quit in the pop-up dialog box (if that doesn't work, then try Force Quit).

Remove all components related to Kidwidget 2 in Finder. Though Kidwidget 2 has been deleted to the Trash, its lingering files, logs, caches, and other miscellaneous contents may stay on the hard disk. For complete removal of Kidwidget 2, you can manually detect and clean out all components associated with this application. In that case, you can do a Google search about the components for Kidwidget 2. 1, or you encounter some specific problems in deleting it to the Trash, or even you are not sure which files or folders belong to Kidwidget 2. For the applications that are installed from the App Store, you can simply go to the Launchpad, search for the application, click and hold its icon with your mouse button (or hold down the Option key), then the icon will wiggle and show the "X" in its left upper corner. 1 creates files in several locations. Generally, its additional files, such as preference files and application support files, still remain on the hard drive after you delete Kidwidget 2.

Automatically uninstall Kidwidget 2 with MacRemover (recommended): No doubt that uninstalling programs in Mac system has been much simpler than in Windows system. 1, and either of them works for most of the apps on your Mac. If you confront any difficulty in uninstalling any unwanted application/software, don't hesitate to apply this automatic tool and resolve your troubles.

Despite that, you should also be aware that removing an unbundled application by moving it into the Trash leaves behind some of its components on your Mac. Delete Kidwidget 2 application using the Trash. First of all, make sure to log into your Mac with an administrator account, or you will be asked for a password when you try to delete something. However, instead of installing
